ESG-Integration	Yes A policy of responsible business investment is integral to the investment philosophy and process of the Heptagon Future Trends Equity Fund. Integrating ESG principles into our investment process enhances our ability to understanding existing and potential risks and opportunities for potential portfolio companies. The Fund is highly concentrated with low levels of turnover, and is sector, size, and geography agnostic. Portfolio construction is conducted bottom-up, with an emphasis on quantitative and qualitative factors as well as ESG considerations. The Fund aims to exclude companies that are directly involved in, and/or derive significant revenue from, industries or product lines in areas such as gambling, weapons, or tobacco and engages in active dialogue with companies to foster good ESG practices and improve the sustainability profile of companies in the long-term.
Norm-based screening	✓ UN Global Compact
Themes	✓ SDGs We seek to identify and invest in a diverse range of businesses offering exposure to the key trends which we believe will help shape the future. These naturally align with the United Nations Sustainability Development Goals. It is our view that these trends are poised to grow sustainably and in importance broadly regardless of the economic backdrop and regulatory dynamics.
